ABOUT ME

I am a Licensed Cosmetologist with a hair and makeup artistry certification at a renowned makeup and hair academy in Canada. I am a trained professional who takes utmost pride in my work and professionalism. I consider my customer service to be nothing short of stellar. I take time and energy to make you look and feel beautiful while still keeping your personality and vibe in mind. I have a very comfortable and intimate studio in Kingsport. I love what I do, and have some high end work under my belt such as dancing with the stars tri-cities. I'm well diversified in the ranges of skin tone and ethnicities that I have and continue to work with. I understand mature skin as well. I only prefer a higher end line of products and that's what I use for the face especially. Your skin is important to me. I continually get feedback from brides who tell me that after they washed their face of all the makeup, their skin actually looked better afterwards. You can be rest assured that if you book with me, you will get a guaranteed contract in hand with our mutual understanding. If you see a hairstyle or a makeup look you can be rest assured that I will create that for you assuming it's suitable for your hair and skin type. I love to bring some good music to your event and create a fun vibe, I lough to laugh with you and take photos and videos. I like to think that with every client I leave a piece of my soul with you. Hygiene is another big thing that I give importance to so rest assured.
